

# PHQ-4: THE FOUR-ITEM PATIENT HEALTH QUESTIONNAIRE FOR ANXIETY AND DEPRESSION

| Over the last two weeks, how often have you been bothered by the following problems? | Not at all               | Several days             | More than half the days  | Nearly every day         |
|--------------------------------------------------------------------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Feeling nervous, anxious or on edge                                                  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Not being able to stop or control worrying                                           | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Feeling down, depressed or hopeless                                                  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Little interest or pleasure in doing things                                          | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| TOTALS                                                                               | <input type="text"/>     |                          |                          |                          |

Total score is determined by adding together the scores of each of the 4 items.

Scores are rated as normal (0-2), mild (3-5), moderate (6-8), and severe (9-12).

Total score  $\geq 3$  for first 2 questions suggests anxiety.

Total score  $\geq 3$  for last 2 questions suggests depression.
